Leather Crafting

WORK SHOPS

MASTER THE CRAFT. BUILD YOUR BRAND.

101 Leather Craft Foundation Masterclass

The essential starting point for hobbyists and entrepreneurs alike.

This 6-hour intensive masterclass is more than just a workshop—it is your technical blueprint for leather success. Whether you want to make unique gifts or launch your own retail line, you will learn the professional "why" behind every technique.

ARTISANAL THEORY

Leather Science: Tanning, grain structures, and selecting premium hides.
Sourcing Secrets: Where and how to buy the right materials in Sri Lanka.

Tool Architecture: A detailed breakdown of
chisels, hammers, and knives.

Machine Mechanics: Full demo of the industrial skiving machine.

TECHNICAL MASTERY

The RADI Stitch: Master our signature high-neatness saddle stitching.

Edge Artistry: achieve glass-like edges with professional burnishing.

The Project: Craft your own minimal wallet from scratch.

104
Leather Belt Workshop

Craft a Handmade, Full-Grain Legacy in 3 Hours

Most commercial belts are made of "genuine leather" (pressed scraps). In this masterclass, you will work with Full-Grain Leather -the strongest, most premium part of the hide—to craft a belt that is truly handmade and built to last a lifetime.

Journal Cover Workshop

Build a Cover Worthy of Your Vision.

A journal holds your thoughts, your strategies, and your vision—the exterior should be just as compelling. Join us for an immersive design experience where tactile premium materials meet bold artistic expression. You will learn the fundamentals of cover composition, texture selection, and impactful typography to create a custom journal cover that is both a functional tool and a powerful piece of personal art.
